(ES) El cabezal Airzone VALR cuenta con una rosca estándar de M30x1.5 mm y se suministra con adaptadores tipo Danfoss, Caleffi y Giacomini. Si su radiador no es compatible considere reemplazar su válvula por una termostatizable de medida M30x1.5 mm.

(EN) The Airzone VALR head has a standard thread of M30 x 1.5 mm and is supplied with Danfoss, Caleffi and Giacomini type adapters. If your radiator is not compatible, consider replacing the valve with an M30 x 1.5 mm valve which can become thermostatic.

(FR) La tête thermostatique Airzone VALR dispose d'un filetage standard M30 x 1.5 mm et est livrée avec des adaptateurs de type Danfoss, Caleffi et Giacomini. Si votre radiateur n'est pas compatible, pensez à remplacer la vanne par une thermostatizable M30 x 1.5 mm.

(IT) La testa Airzone VALR dispone di un filetto standard da M30 x 1.5 mm e viene fornita con adattatori di tipo Danfoss, Caleffi e Giacomini. Se il radiatore non fosse compatibile, considerare la possibilità di sostituire la valvola con un'altra termostatizzabile da M30 x 1.5 mm.

(PT) A cabeça Airzone VALR tem uma rosca padrão de M30 x 1.5 mm e é fornecida com adaptadores de tipo Danfoss, Caleffi e Giacomini. Se o seu radiador não for compatível, considere substituir a válvula por uma termostatizável de M30 x 1.5 mm.

(DE) Der Kopf Airzone VALR verfügt über ein Standardgewinde mit M30 x 1.5 mm und wird mit Adaptern vom Typ Danfoss, Caletti und Giacomini geliefert. Wenn Ihr Heizkörper nicht kompatibel ist, sollten Sie die Möglichkeit in Erwägung ziehen, das Ventil gegen ein thermostatisierbares Ventil mit M30 x 1.5 mm auszutauschen.
